PRESIDENT'S REPORT

The unfavorable social and financial conditions of the past few years have obtained during the year just ended, as a result of which the serious effects become more pronounced the longer this situation remains unrelieved.

While business at St. Luke's was not what we anticipated or hoped for in the year 1935, I am glad to report that it showed an improvement over the previous two or three years, and that the service rendered was up to the standards we have always maintained in the past under more favorable conditions.

Our hospital is 72 years old and we can look back with pride on its successful and honorable career. I believe it has reached its present position of high efficiency and value to the community as a result of the combined efforts of all those interested in its success. Today the Board of Trustees has passed favorably on improvements in new equipment in certain departments, which should be of great value, and, as a result, the hospital should function in a more highly satisfactory manner.

St. Luke's Hospital continues to contribute to the welfare and care of the sick and needy of Chicago, and this part of our work causes us great concern, when ultimately we must confront the fact that gifts and substantial legacies are not sufficiently available and we must look more and more to operating income for support. This means the building up of more private patient occupancy, since this is the only source from which the hospital can derive larger income.

The contribution of St. Luke's Hospital to the sick and needy may be realized in greater degree when attention is directed to the fact that our hospital rendered free service of more than \$75,000 during 1935.

From the foundation of our hospital The Woman's Board has had an important part in contributing to its service. This Board was organized to correlate and direct work done to aid the Trustees, and its most important activity, and certainly the largest, is the work in connection with the Social Service and Out-Patient

departments, whose expense is financed by The Woman's Board. I think the friends of the hospital will be impressed by the figures of these two departments, for during the year total patients registered in the clinic numbered 12,185, with total visits of 62,466. The amount expended by our Woman's Board for the Social Service Department and other activities directly beneficial to the hospital was \$29,480.31.

In conclusion I wish to thank the Board of Trustees, The Woman's Board, the officers and members of the Medical Board, and the members of the hospital for their faithful and untiring interest and cooperation.

RULES

AS TO

ENDOWED ROOMS AND BEDS

A donation of \$5,000 endows a bed in a ward with the right to name the bed in perpetuity, but without the right to nominate occupants for the bed.

A donation of \$7,500 endows a bed in a ward with the right to name the bed in perpetuity and the right to nominate the occupants of the bed during the life of the endower.

A donation of \$10,000 endows a private room with the right to name the room in perpetuity, but without the right to nominate the occupants of the room.

The sum necessary to endow a private room in perpetuity with the right to name the occupants thereof shall depend on the size, location and general desirability of the room selected.

The right to nominate the occupants of a bed or room shall be understood to mean:

That the endower shall have the right to nominate one patient at a time to occupy the said bed or room, and if all beds or rooms are occupied to a preference over all other applicants when a vacancy occurs.

In the event that an endowed bed or room is occupied the Hospital reserves the right to place the patient in some other equally good bed or room.

Persons nominated to free beds or rooms should be worthy subjects for such charity.

Persons whose means admit of their paying for hospital care and treatment are not acceptable as occupants of free beds.

TO THE BOARD OF TRUSTEES OF
ST. LUKE'S HOSPITAL

We have made an examination of the balance sheet of ST. LUKE'S HOSPITAL as at December 31, 1935, and of the statement of income and expenses for the year ended that date. In connection therewith, we examined or tested accounting records of the hospital and other supporting evidence and obtained information and explanations from officers and employees of the hospital; we also made a general review of the accounting methods and of the operating and income accounts for the year. Our detailed audit of the transactions was limited to test-checks of certain transactions mainly for one month of the year.

During the year 1934, the assets of the various funds were segregated on the books of the hospital. This segregation was made by officials and counsel of the hospital after a study of the available documents relative to bequests and endowments. The accompanying statements reflect the segregation so determined, but our examination did not include a review of the aforementioned documents.

In our opinion, based upon such examination, the accompanying balance sheet and related condensed statement of income and expenses, subject to the notations thereon, fairly present, in accordance with accepted principles of accounting consistently maintained by the hospital during the year under review, the financial position of the hospital at December 31, 1935, and its income and expenses for the year ended that date.

The above balance sheet is subject to the following:

- (1) The reserve for depreciation of buildings includes provisions for depreciation only up to and including the year 1912; no provisions have been recorded on the books subsequent to that year.
- (2) Investments are stated at amounts carried on the books without regard to such decrease as would occur if such assets were recorded at book values or market, whichever the lower.
- (3) Bonds having a book value of \$39,746.25 (quoted market price \$42,498.75) included in the endowment-fund investments are also recorded on the books and balance sheet of the Linen Committee as assets of that organization. Other than these bonds, assets of organizations which function in connection with the activities of the hospital are not included in the above balance sheet.
- (4) Negotiations are pending whereby the holder of the \$450,000.00 mortgage note may agree to accept a payment of \$75,000.00 in cash and to extend the remaining \$375,000.00 to April 1, 1941, with interest at 4% per annum. It is contemplated that funds for the payment of the amount of \$75,000.00 will be provided from sales and maturities of unrestricted-investment-fund securities.
- (5) Uncollected subscriptions to the Greater St. Luke's Campaign Fund, in the aggregate amount of \$182,398.93 as shown by the records of the hospital, are not included in the above assets.

REPORT OF THE SCHOOL OF NURSING

1935

January 1, 1935, found the student enrollment at its lowest point in eight years; on that date it was but 102. The volunteer nursing corps having been discontinued, and a need for an increased nursing personnel being apparent, it was agreed that larger classes should be admitted during the year. In pursuance of this policy 44 students were admitted in February and 63 in September. Subtracting the students graduating during the year, and the resignations occurring during the period, the enrollment stood at 167 on December 30, 1935.

The School's affiliations with the Municipal Contagious Disease Hospital, the Visiting Nurse Association and the State School of Psychiatric Nursing have been continued. That with the Infant Welfare Association has been discontinued for the time being.

The extent of the affiliations demanded, plus the class instruction, now amounting to 1,020 hours presented annually by instructors and physicians, makes the presence of a considerable body of graduate general duty nurses necessary to supplement the student nurse personnel during absence from the wards. An average corps of 50 graduates has been employed during the year for bedside nursing.

The social activities of the School have been provided for by the income from the Herman H. Hettler, Jr. Fund, and by The Woman's Board, which augmented the amount available for student activities, to make possible an annual budget of one thousand dollars.

The following members of the Medical Board now compose the staff of lecturers engaged in the teaching program:

Fred E. Ball, M.D.

C. F. G. Brown, M.D.

Burton R. Bancroft, M.D.

Eugene Cary, M.D.

J. A. Cavanaugh, M.D.
F. A. Chandler, M.D.
George H. Coleman, M.D.
J. S. Coulter, M.D.

George Scupham, M.D.
E. M. Smith, M.D.
L. L. Veseen, M.D.
Howard Wakefield, M.D.
Sydney Walker, M.D.

To these lecturers, and to the members of the departments Anaesthesia, Dietetics, Physiotherapy, Occupational Therapy and Electrocardiography who have cooperated in the classroom instruction, the Administration of the School of Nursing takes this opportunity to express its thanks.

Respectfully submitted,
JANET FENIMORE KORNGOLD,
Director, School of Nursing.

Urinanalyses	8,577
TOTAL.....	12,853

A comparison with the work of the previous year reveals that the total for 1935 exceeds the total for 1934 by 5.27 per cent. These figures emphasize that greater demands for routine laboratory examinations are being made on the laboratory by the attending staff and from time to time the need arises for special kinds of laboratory tests. To meet these demands the laboratory organization with its personnel must be adapted. During the past few years there has been a marked increase in examinations for

Information Relative to Pay Patients

Medical and Surgical Fees in the case of pay patients are fixed by private arrangement with the Attending Physician or Surgeon.

PRIVATE ROOMS

The rates in the Smith Memorial Building are: Single rooms, \$7.75 to \$17.25 per day. Relatives or friends will be accommodated as guests when the available space will permit.

The rates in the Main Building:

Single Rooms, per day.....	\$6.25
Semi-private Rooms, per day.....	5.00
Ward rates, adults, per day.....	4.00
Children under twelve years old, per day.....	1.00

GRADUATE NURSES

Graduate special nurses may be employed by patients at the following rates:

8-Hour Service	\$5.00 Per Day
10-Hour Service	6.00 Per Day
12-Hour Service	7.00 Per Day

The transaction is directly between the nurse and the patient, and payment should be made to the nurse.

Nurses' meals will be billed by the hospital on patients' accounts.

AN EXTRA CHARGE WILL BE MADE FOR THE FOLLOWING:

Use of operating or delivery rooms; gas anaesthetics; X-Ray and electrical examinations and treatments; Electrocardiographic tests; Metabolism tests; Physiotherapy treatments and unusual articles of diet, medicines, apparatus and dressings.

amoebic infections. Proper training of personnel to make these examinations and refinements in the methods used was necessary to meet this demand. The number of examinations of the blood also has increased, part of which increase resulting from a more comprehensive inspection of the health of the student nurses.

Research and the training of young physicians in pathology have continued as in other years, Mr. Paul J. Hartsuch, who succeeded A. P. Locke, held the Seymour Coman Fellowship of the Chemistry Department of the University of Chicago during the year 1934. In his research studies he has devised an electrical apparatus for measuring very precisely the alkalinity or acidity of small volumes of biological fluids.

Dr. Oscar O. Christianson held the John Jay Borland Fellowship in Medicine until July 1, 1934, when he accepted an appointment in the Department of Pathology at Rush Medical College and at the Presbyterian Hospital. Dr. E. D. Zeman is his successor. Dr. Cornelius S. Hagerty, who preceded Dr. Christianson on the Borland Fellowship, is Assistant Professor of Pathology at the University of Alabama. Because the funds available under the Seymour Coman Fellowship were insufficient, additional support for the work of Mr. Hartsuch was provided by the Watson K. Blair Memorial Fund. Other research studies were made possible by the Winfield Peck Memorial Fund administered through Dr. J. A. Capps. Dr. J. I. Brewer in his studies of very young human embryos, received support from the Albert B. Kuppenheimer Fund.

The following publications from the laboratory were completed during the year 1935:

EDWIN F. HIRSCH:

"Radial Inclusions of Giant Cells."

Arch. Path: 20: 665-682, 1935.

PETER A. NELSON and EDWIN F. HIRSCH:

EDWIN F. HIRSCH:

"Embolic Pulmonary Lesions Produced in Rabbits by Human Fat Containing Fatty Acids or Soaps." (Ca. Sr. Ba.)
Arch. Path. (in print).

Dr. E. R. LeCount, who for many years gave devoted service and wise counsel in the Laboratory died on August 23, 1935. His death is a great loss, and has created a gap in the Laboratory difficult to bridge.

The Laboratory again expresses grateful appreciation for the support given during the year.

Respectfully submitted,
EDWIN F. HIRSCH, Ph.D., M.D., Director.

REPORT OF THE PRESIDENT

To the Board of Trustees,
St. Luke's Hospital,
Chicago, Illinois.

Gentlemen:

The various committees of The Woman's Board have carried on their work at the Hospital as usual.

Early in the year we had an irreparable loss in the death of our beloved member, Mrs. Henry Faurot, Jr.

We have elected to membership Mrs. Robert McCormick Adams, Mrs. Charles Y. Freeman, Mrs. Gordon Lang, Mrs. Fred-eric McLaughlin 2d, Mrs. Robert J. Thorne and Mrs. Morrison Waud, making a total of fifty-six Active Members, two Honorary Members and three Senior Members.

The primary activity of the Board is the directing of the Social Service Department, under Mrs. Walter B. Wolf and her staff of trained workers. Her report gives a most illuminating account of this.

To finance the Social Service Department, and our other committees, we hold an Annual Fashion Show, which for 1935 yielded a net amount of \$25,795.57. This was the best Fashion Show we have had, both financially and artistically, since 1931. To accomplish this, every member of the Board gave unsparingly of her time and energy. As Chairman, I wish to thank each one.

The Occupational Therapy Department, under Mrs. Grant H. Laing and Mrs. Selim W. McArthur, has made great strides. Mrs. Laing gave an interesting speech at the Illinois Occupational Therapy Association meeting at the Presbyterian Hospital in January. Another enthusiastic meeting was held in November for the demonstration of our Occupational Therapy Department for the Red Cross Class of Grey Ladies for St. Luke's, with Dr. John S. Coulter lecturing.

A new hand book on Occupational and Physical Therapy is now being compiled for later publication by the American Medical Association. Dr. Harry E. Mock, who is editing this book, asked our Occupational Therapist, Mrs. Abbey, to write an eight thousand word article for it.

We have given to the Hospital during the year:

Fourteen Hospital Beds, four of the Latest Fracture Autopan Beds and two Infant Incubators.

The usual Linen for the Training School and the Hospital, and the salary of the Supervisor of Linen.

Miss Shannon's salary as Recreational Director and assisted the Nurses' Committee in financing parties for the nurses.

Easter and Christmas flowers, Christmas trees and decorations.

Although I have not mentioned specifically our many committees, I wish to thank them for their accomplishments.

All of the above represents a total of \$29,480.31 given to the Hospital during 1935.

Respectfully submitted,

EMILY LYON GARY,
President.

January 16, 1936.

January 16, 1936

Mrs. Harold C. Smith,
Treasurer, The Woman's Board of St. Luke's Hospital,
Chicago.

Dear Madam:

In accordance with your request, we have examined the records of The Woman's Board of St. Luke's Hospital for the year ended December 31, 1935.

The cash receipts as shown by the records were checked to the deposits indicated by the bank statements. All cash disbursements were supported by cancelled checks or bank advice of charge covering securities purchased. The balance on deposit in The Northern Trust Company at December 31, 1935, amounted to \$33,733.84 as shown by the bank statement and by the accompanying statement of cash receipts and disbursements for the year under review.

The following investment securities held in the vaults of The Northern Trust Company, as custodian, were confirmed direct to us by that bank:

	Par Value	Cost	Market Value Dec. 31, 1935	Interest Received During Year 1935
American Rolling Mill Company, 5% sinking fund gold debentures, due January 1, 1948.....	\$4,000.00	\$3,984.00	\$4,135.00	\$200.00
Kentucky Utilities Company, 5% first mortgage bonds, series "H" due February 1, 1961.....	5,000.00	5,025.00	4,700.00	250.00
	<u>\$9,000.00</u>	<u>\$9,009.00</u>	<u>\$8,835.00</u>	<u>\$450.00</u>

Interest on these bonds in the amount of \$450 as shown above, was deposited in the bank.

The cash receipts and disbursements for the year in connection with the securities of the committees of The Woman's Board are summarized as follows:

Yours faithfully,

ARTHUR YOUNG & COMPANY,
Certified Public Accountants.

FLOWER REPORT

1935

At Easter a pink Briar Cliff Rose was placed at the bedside of each patient, given to each nurse, interne and to the personnel of the Hospital. Lily plants were put on the nurses' dining room tables,—a gift from a member of the Board.

Christmas trees were decorated as usual on the various floors of the Hospital by members of The Woman's Board and a red carnation was given to each patient, nurse, interne and to the personnel.

KINDERGARTEN REPORT—1935

The children on Main 8 were given special parties, consisting of favors, ice cream and cake on the following holidays throughout the year—Valentine's Day, Washington's Birthday, St. Patrick's Day, Decoration Day, Fourth of July, Hallowe'en, Thanksgiving and Christmas.

The Christmas party was a great success. Special donations of fifty dollars each were given by The Service Club and Mrs. Frank O. Lowden. This money was used to buy toys for the children, and also toys and games to be kept on the floor.

Mr. Walter B. Smith gave Miss Rogers, the supervisor, permission to buy at Marshall Field's at his expense anything that was needed for the Christmas party. Ten or twelve presents were bought, including six pairs of badly needed bedroom slippers, which are to be kept on the floor.

The wives of the Doctors filled individual stockings for each child.

The party was held on the sun porch—two of the Service Club members having trimmed the tree the day before.

The fifteen children who were there for Christmas all attended, some being brought in on stretchers, others in wheel chairs. One of the Doctors was Santa Claus. The party ended with a very fine Christmas dinner, with special ice cream Santa Claus.

During the year, with the exception of three summer months, Miss Bonfield received her ten dollars monthly allowance, which she uses for school supplies. Five dollars was spent for each holiday party, and two dollars was given to Mrs. May, the kindergarten teacher, for extra supplies.

ADMISSION OF PATIENTS

*The Charge for Children under 12 years
of age, Ward Beds, is \$1.00 per day*

The Charge for Open Ward Beds is . . \$4.00 per day

*The Charge for Semi-Private Beds is . . \$5.00 and
\$5.50 per day*

*The Charge for Private Rooms is . . . \$6.25 to
\$17.25 per day*

The Hospital cares for about 500 wholly free patients, and will, when there are vacant beds in the open wards, receive patients whose means will not permit them to pay, provided they are admissible under the rule governing the admission of patients.

Application for the admission of free patients who are unable to apply in person, must be made prior to sending them, and should be made between the hours of 9 a.m. and 5 p.m. All promises of admission are made subject to the result of an examination, as to admissibility, on their arrival at the Hospital.

The financial status of all free patients is investigated by the Social Service Department and free treatment will not be given unless justified by the report.

Visitors to patients in the Main Building should apply at the Indiana Avenue office.

EXTRACT FROM RULES

"The Hospital is for the treatment of acute, curable, non-contagious diseases and injuries. The following are inadmissible: Sufferers from contagious, dangerously infectious, or incurable diseases, drug habits, delirium tremens, insanity and persons whose presence in the wards would be prejudicial to the welfare of the other patients.

"Patients who refuse to accept the treatment prescribed by the Medical Staff, or refuse to comply with the instructions of the physicians or nurses, or who willfully violate the rules of the Hospital will be discharged."

ANNUAL REPORT OF THE LINEN COMMITTEE OF ST. LUKE'S HOSPITAL—1935

Madam President and Members:

We have, during the past year, given the hospital 2,974 articles at the cost of \$2,353.70, also supplied the Training School with 1,716 articles which cost \$422.81.

We have continued the salary of the Supervisor of Linen at \$1,221.84 and the rental of our Vault Box at \$6.60. Ten Nurse's Uniforms were again given the City Contagious Hospital as a gift from St. Luke's at a value of \$10.00.

Twenty-three churches have sewed for us this year completing 4,140 garments which has been of great assistance to the sewing room.

The covers for the backs of wheeled chairs was the one article added to our list this year.

The total amount given the hospital as shown in the following financial report of disbursements this year is \$4,004.99, less \$17.45, the refund for uniforms, pillows and cases bought by the employees, or a net amount of \$3,987.54.

May we take this opportunity of thanking all those who have given to our funds and supplies and the Churches for their help in making our various garments during the past year.

Respectfully submitted,

MAY W. ELDRIDGE,

Chairman.

Note: There is a difference of \$4,000 between the Financial Report and my own report representing funds reinvested during 1935.

Income in Excess of Expenditures.....	\$ 545.87	\$ 826.92	\$1,372.79

The decrease on net income for 1935 is due primarily to additional expenditures for supplies and materials. Gross income from interest and donations decreased \$308.52.

Balance Sheet

The assets of the Jessie Spalding Landon Fund and the Linen Committee General Fund at December 31, 1935, are presented in detail in the Balance Sheet attached in Schedule I. They may be summarized as follows:

	Jessie Spalding Landon Fund	General Fund	Total
Cash in Bank.....	\$ 246.19	\$ 1,858.19	\$ 2,104.38
Real Estate Notes		19,000.00	19,000.00
Bonds	39,746.25		39,746.25
	<u>\$39,992.44</u>	<u>\$20,858.19</u>	<u>\$60,850.63</u>

Cash in banks at December 31, 1935, was reconciled with statements furnished by the depositaries. We ascertained that disbursements during the year were supported by cancelled checks, invoices, etc., and that receipts recorded in the cash book were deposited in the bank, but our examination of the receipts was limited to the verification of the income derived from securities.

Proceeds of investments realized during the year amounting to \$4,325.00 were reinvested to the extent of \$4,000.00.

The notes of the Chicago Automatic Conveyor Company for \$5,000.00 due July 9, 1932 are unpaid, and semi-annual interest of \$150.00 due July 9, 1935, was past due at December 31, 1935. Two years' interest amounting to \$180.00 is past due on the John H. and Hattie Petzel note. Interest amounting to \$105.00 due December 25, 1935, on the Michael J. and Mary P. Gudaniec note was past due at December 31, 1935.

We inspected the notes receivable amounting to \$19,000.00 which are kept in the safety deposit box, and we have received confirmation from The Northern Trust Company that the bonds of the par value of \$40,500.00 were on deposit in that bank. The accompanying statements do not reflect the value of any interest which the Linen Committee may have in the principal of the Robert W. Roloson Fund, which we are advised is carried as a part of the general endowment funds of St. Luke's Hospital.

Investments are stated at cost, and we have not investigated their present market values.

We wish to acknowledge the assistance and courtesies extended to our representatives during the conduct of their work.

Yours respectfully,

EDWARD GORE & CO.,

Certified Public Accountants.

Occupational Therapy Department,
St. Luke's Hospital,
Chicago, Illinois.

Dear Mesdames:

We have audited the books and records of the Occupational Therapy Department of the St. Luke's Hospital for the year ended December 31, 1935, and submit herewith a statement of cash receipts and disbursements for the period.

Cash disbursements were supported by cancelled checks. The amount of cash in bank was reconciled to the bank statement.

We verified that the Woman's Board of St. Luke's Hospital Treasurer holds for the Occupational Therapy Committee the following security:

Chicago Title & Trust Company, as Trustee, 5% bond, Series "E" due May 1, 1942, certificate of deposit (Hettler Fund) Par value \$1,000—Market value, December 31, 1935, \$430.

During the year under review an interest payment of \$70 on the foregoing security was received by The Woman's Board of St. Luke's Hospital.

Yours faithfully,

ARTHUR YOUNG & COMPANY,
Certified Public Accountants.

**ANNUAL REPORT
SOCIAL SERVICE DEPARTMENT
ST. LUKE'S HOSPITAL
1935**

In the year 1935 the visits to our Clinics totaled 62,466 made by 12,185 patients. This was a decrease from 1934 of 3,457 in the number of visits and of 929 in the number of patients, the rate of decrease in patients somewhat exceeding the rate of decrease in visits. These decreases are explained by the curtailment of the Relief funds and by greater care on our part in the admission of applicants to the services of our Clinics.

The Admitting Department has followed the standards and procedure of eligibility for care in charitable clinics prescribed by the Clinic Section of the Health Division of the Chicago Council of Social Agencies. The underlying principles concerning admission are:

1. Clinic service is afforded to persons in the community who are unable to pay the cost of needed medical service and for whom the required service is not established and available elsewhere.

2. The ability of applicants to pay for such care is determined by careful application of the standard budgets set forth by the Clinic Section.

During 1935, 2,657 applying cases were not accepted for clinic care for the reasons following:

699 were referred back to private doctors either for release to clinic or as able to pay for private care;

378 were returned to clinics where they were previously registered;

381 (mostly contagious cases) were refused admittance because of lack of facilities for their proper care;

454 were referred for care to City, County or State institutions;

261 were referred to Relief agencies for adjustments;

144 were outside the geographic area we serve;

39 were compensation cases;

301 applied for advice only.

The Admitting Department reinterviewed 1,400 old families to determine whether they were still eligible for clinic care. This department was managed by Miss Emily Faucett very efficiently to the time of her departure and we much regret her loss. Miss Mildred Dana is the present head of the department and is ably conducting its work with the assistance of our volunteers, Misses Eleanor Wetten, Martha Lee, Caryl Bloomington, Barbara Fortune and Betty Babson. It is noteworthy that the service rendered in 1935 by our clinics to relief patients was greatly in excess of the financial allocation therefor made us by relief agencies. The funds so supplied provided for the care of 23,720 visits and our clinics in fact serviced relief patients to a total of 30,295 visits or an excess of over 25%.

The **Medical Clinic** is held daily except Saturdays. As there are clinics both in the forenoon and afternoon of Wednesday, the total clinics weekly is seven and there is a Medical Clinic each afternoon except Saturday and Sunday. The total number of visits to this clinic in 1935 was 14,086, of which 598 were new cases, and there are 22 physicians in attendance at this clinic. The Sunday morning clinic commences at 8:30 and is very largely attended. A new card filing system for patients' records has been worked out which simplifies the diagnostic work, greatly assists the follow-up work, and is a positive help in obtaining information quickly for the doctors. In the late Spring Mrs. Grimson, the Clinic Dietitian, gave a series of six lectures to diabetics under the supervision of several of the doctors. All diabetic patients, regardless of the clinic they were attending, were invited to the lectures. Dr. Fred Ball opened the Monday lectures and Dr. N. Fisher the course on Wednesdays. Mrs. Grimson's lectures included the caloric value of foods, low cost diabetic diets, specifications in the use of insulin among other subjects. At the conclusion of the series each patient received a notebook preserving all the highpoints of the course. There have been numerous inquiries as to when this course will be repeated. In all cases of pulmonary tuberculosis reported to the Municipal Tuberculosis Sanitarium a letter was sent giving the diagnosis, findings (both X-ray and laboratory) as well as the clinical report. Miss Ruth Pearce, our Medical Clinic social worker, is in attendance at each session of this clinic and is always available for consultation with the patients or with the doctors or on the part of others interested. It is her responsibility to know that each patient is aware of his or her condition in order that there may be better cooperation in the plan of treatment. Miss Pearce has selected certain of the student nurses in the training school who have been assigned to

duty in the Social Service Department to accompany her on home calls and on visits to the various agencies in this community. Student nurses participating in this work make written reports to Miss Stolp who is in charge of the nurses in our department. Miss Pearce has been assisted in her work by Mrs. Shure, who, except during the vacation period, has charge of the X-rays, electrocardiographs, metabolism tests, blood counts and blood Wassermanns. Volunteer service in this clinic was performed by Miss Eleanor Idler on a full time basis for several months last Spring and the work volunteered by Mrs. Clyde Walther, Miss Kerwin and Mrs. Kimmel has been of great assistance and much appreciated.

The **Orthopedic Clinic** meets 4 times a week and is conducted by 7 physicians. The average daily attendance is 20 to 25 patients of which usually more than half are children. This clinic cooperates with the four special crippled children's schools in the city as well as with the Municipal Tuberculosis Sanitarium, The Chicago Tuberculosis Institute and The Visiting Nurses Association. These agencies render a constant and invaluable assistance both in helping to fill the gap between the hospital and the home and by their considerate cooperation with the purposes of our clinic and in making available the services of our clinic, in which capacity our volunteer workers are also of frequent assistance. The clinic is in charge of our social worker Miss Ada Blumer who at each session is assisted by one of our own volunteers, Mrs. Betty McKay, Miss Peggy Wiley and Miss Wilma Buehler, the latter attending two sessions weekly. Volunteers not only help with the routine procedure but frequently transport patients to and from home.

Orthopedic patients are admitted to the privileges of the Marquette Charitable Organization, of the Rotary fund, of the Community fund and of payments made or contributed by the Illinois Emergency Relief Commission. The authorities of the Illinois Emergency Relief have purchased numerous pairs of corrective shoes and other clothing for our patients, while clothing has also been provided by our own clothes fund and required braces have been supplied by the Illinois Emergency Relief Commission or from special funds or from the Ellen Waller Loan Fund. The Needlework Guild has made donations of clothing for the patients of this clinic and the Mead Johnson Company has been most generous in supplying cod liver and haliver oil for use by the clinics' patients. The contributions from Rand McNally Company of issues of Child Life and of other books have been much enjoyed and appreciated. During the summer months the crippled children

attending our clinic are sent to two crippled children's camps, one at Browns Lake near Burlington, Wisconsin, and the other at Twin Lakes, Indiana. Arrangements have been made for the care of 10 patients in convalescent homes following their discharge from the hospital. I would like to direct attention to the following incidents: The mother of a child under the private care of Dr. Ritter is financing the medical care of a crippled child affected with the same deformity as her own son and that patient is now attending the Gompers School. In another case a patient of this clinic for several years graduated at the Christopher School in June, 1935, and then received a \$400 scholarship to attend the University of Chicago where she is registered in the School of Social Science. This patient volunteered her services during the past summer in our Social Service Department.

The **Neuro-psychiatric Clinic** meets daily and requires the attendance of 6 physicians. The total visits to this clinic in 1935 were 2,543 of which 386 were made by patients never previously admitted to this clinic and of this number 231 were diagnosed as neurological and 155 as psychiatric. Individual intelligence tests have been given to many patients and, in indicated cases, school adjustments have been made. A diagnostic file is kept showing the neurological and psychiatric classification of each patient admitted to the clinic. Arrangements have been made for patients to enter state hospitals on a volunteer commitment basis for treatment for drug addiction and chronic alcoholism. Commitment papers have been filed in about 20 cases; and as a consequence of this the patients named are first sent to the Psychopathic Hospital and are then placed in state institutions by the courts. Spinal punctures are now performed in this clinic. The social worker in this clinic is Miss Edith Johnson who also serves the Dermatology Clinic.

The **Dermatology Clinic** meets every Tuesday and Friday and is conducted by 3 physicians. In 1935 this clinic received 6,953 visits of which 4,618 were for anti-luetic treatment. A record of all positive Wassermanns is kept by the worker in this clinic in order that a check can be made as to each patient with positive serology to make certain that he or she is referred to this department for treatment. Where the diagnosis of a patient is positive all members of the family are urged to report for blood Wassermanns and if those result positively a plan is devised to provide the necessary treatment. Where patients at this clinic are delinquent in responding to two letters and a home visit, they are reported to the Health Department. Monthly reports covering the new patients, the results of serology tests and stating the treat-

ment administered are made to the State and City Health Departments.

The **Pediatric Clinic** is held each weekday morning with Miss Orma Peckham as the social worker in charge at each of these 6 sessions. It is staffed by 14 physicians of whom 9 gave their services one morning a week and the other 5 two mornings. 7,122 visits were made to this clinic in 1935, an increase beyond the 1934 clinics of over 2,000 visits. Because of this large percentage of increase the functioning of the clinic organization was necessarily taxed and the social worker was assisted by our volunteers, Miss Rosenfels, Mrs. Julius Manaster, Mrs. Hirsch, Miss Eleanor McNally and Mrs. David Lawrie as well as the students of Antioch College. The Monday morning session of the clinic is essentially for supervision of colored infants and the care of medical conditions. The Tuesday session is divided into supervision of white infants and the nephritic patients. General medical conditions are seen at the Wednesday session as well as a few colored feeding problems. The Allergy Clinic is held on Thursday and has developed during the year just past so that there is a large group under treatment. The Friday clinic is primarily for cardiac children although there is one doctor on duty for the examination of return patients and general medical conditions. On Saturday morning the session is for school children with non-specialized conditions and for the administration of diphtheria toxoid, Schick and Dick tests and vaccinations, for which purpose vaccine is furnished by the Health Department. The 4 special schools in Chicago equipped for care of cardiac children have accepted all patients referred by the Pediatric Clinic to them. The regular schools have also been very cooperative in accepting children whose activity is restricted to an extent such that they cannot participate in gymnasium or in competitive games. X-rays and electrocardiograms have been made available from the Bachmann Memorial Fund and it is our great regret that this fund will soon be exhausted. Among the worthwhile accomplishments of this clinic are the benefit and pleasure afforded children and their mothers during the camp season. 160 mothers and children were given a vacation from one to six weeks at the camps of:

The Bowen Country Club
Holiday Home
Municipal Tuberculosis Preventorium
Camp Lake
Arden Shore
Camp Reinberg and
Sunset Service League

It may be definitely said that the work entailed in preparing patients for camp vacations was more than compensated for by the benefits derived from the ensuing vacation. This clinic was greatly assisted by, and is very appreciative of, the generous and liberal supply by Mead Johnson Company and Abbott Laboratories of cod liver oil and other products required and necessary in the care of infants and children.

The **Surgical Clinic** is held daily except Sundays in the afternoon except on Saturday when there is a morning session. There are 18 surgeons attending this clinic and the number of visits averages from 500 to 600 each month. Miss Myrtle Peterkin is in charge of this clinic and is assisted in her work by our volunteers, Mrs. George Perusse, Jr., Miss Eleanor Wetten, Miss Phyllis Jones and Mrs. Chester Sutphen.

The **Urology Clinic** holds 6 sessions each week, is attended by 4 physicians and averages about 12 patients at each session. Many cystoscopies and kidney lavages are performed. Our social worker in charge of this clinic is Miss Myrtle Peterkin who, besides assisting in minor operations and cystoscopies, confers with patients, arranges hospitalization where necessary and undertakes the responsibility of following up the treatment recommended by the doctors. As a large percentage of these cases are referred to this clinic by agencies, the monthly correspondence with various organizations has been greatly increased.

The **Gynecological Clinic** is held 5 times each week with 2 or 3 staff doctors attending and Miss Helen Connors in charge at each session. In 1935 there were 4,485 visits to this clinic. A Colposcope was purchased during the past year for the Social Service Department by certain of the doctors on the gynecological service. This instrument has been of great help and importance in this clinic's work, as it is used in the diagnosis of early carcinoma of the cervix and through it two cases of that type of carcinoma were diagnosed, a result which is considered very gratifying. At the present time there are 49 active cases of carcinoma, of which 39 are in the cervix and two are in an advanced stage. These patients require follow-up which work is done by this clinic through bedside visits followed by calls in the home.

The **Obstetrical Clinic** is conducted by 3 members of the medical staff with Miss Ethel Bloomquist as the social worker in charge. Registration by mothers for delivery has during the past year shown an increase of 20. The social worker interviews each patient and each patient is given instructions as to hygiene in pregnancy, and as to daily habits, exercise, diet and plans for confine-

ment. It is worthy of mention that great sacrifices are made by all mothers registered with this clinic to insure hospital confinement. The cost to each patient is \$37.50. 7 Caesarean Sections were performed this past year.

The **Eye Clinic**. Miss Ethel Bloomquist is also serving this clinic as social worker. Visits to this clinic totaled 3,332. Many eyes were examined in the past year that were pathologically interesting, particularly cases of glaucoma and iritis. Especial interest is shown in children attending sight-saving classes in Chicago and check ups are made every 4 to 6 months. Complete histories of the eye findings and refractive errors are sent to the Illinois Society for the Prevention of Blindness and to the school at which the child is in attendance. The cost of glasses for relief patients was \$1,267.25 which was paid for by the Cook County Bureau; and the cost of glasses for free patients totaled \$146.25. Doctor Gamble's new ophthalmoscope has been a source of interest and an aid in diagnosis and has been of assistance to the obstetrical department because thereby daily measurement can be made of the blood vessels and the arteries of the eye where toxemia is found in pregnancy cases.

The **Ear, Nose and Throat Clinic** holds 5 sessions a week with 8 doctors in attendance and with Miss Ruth McCoy as the social worker in charge. 4,833 patients were received in this clinic. The curtailment of hospital beds for relief patients, especially for those patients who are attended to by the nose and throat service, was a great handicap in following up tonsillectomies that had been recommended. The Social Service Department appropriated \$300 to care for the most urgent cases on this list—115 in number. Appointments for these operations had to be changed in many cases and in two cases they could not be made because of active rheumatic fever or endocarditis. Included in the patients requiring urgent operation were 27 children, of whom 12 had chronic ear infection or deafness, 4 had heart involvements and others were afflicted with rheumatic fever or repeated attacks of quinsy or chronic infected glands.

The Clinic Dietitian, Mrs. Mozelle Grimson, whose services in the Medical Clinic have been previously mentioned, instructed clinic patients on special diets and food budgeting problems. This instruction was given both individually and in classes. Where patients are receiving relief, special attention must be given to make sure that the cost of diet corresponds to the food budget issued, and if the diet specified is beyond the budget issued care must be taken that the excess is forthcoming or can be provided. This

requires a great amount of correspondence and rechecking with relief stations. The lectures for diabetic patients of the clinics, previously referred to, were very well attended as were those concerning reduction diets. In the lectures for diabetics those patients were taught the relation of the diet prescribed for them to that of the normal individual and other matters relating to the necessity for dietary management and the preparation and portions of the prescribed diet as well as how to check and to control the results of the diet. In the classes on reduction diets patients were taught the relation of their diet to the normal, the caloric value of the various foods and the building up of the reduction diet after normal weight had been obtained. Needless to say, this class was decidedly popular.

The record room of our department contains new files covering the increase in new patients and kept by Miss Olive Keith Raftree and Mrs. Helen W. White who have directed this important section and department and deserve great credit for the efficient system they have installed and made readily available.

The extra clinic activities of this department are so numerous and so helpful that they are noteworthy. Social workers of our department looked after families of many patients or of many who have applied for our care and in so doing solve personal and domestic problems and help in the accomplishment of desired results in the lives of those we are serving or have served. Miss A. Katherine Stephens one of our social workers who was requested to furnish a report of her activity to the Social Service Bureau of the University of Chicago writes:

"There was a gratifying realization that during 1935 several of our longtime intensive cases have by their own efforts risen above their various and multiple maladjustments; have solved to a large degree their own problems and are making, as far as life allows, permanent adjustments."

We are apt to lose sight of the fact that this department cares not only for the sick but, as an important part of its service, follows up cases where our service has been given and gives assistance to worthy families whom we have served. In addition many cases are taken through the Juvenile court; funerals are arranged, weddings are performed and education is supervised and guided.

Our Ford car is still making home visits daily and continues to transport patients to and from the hospital. We are most grateful for the Helen Shedd Reed Fund, from which private nurses for free patients are supplied on the request of the doctor in charge.

We express our thanks and appreciation for the generous gift to the department from St. Chrysostom's Church of \$75.00 and from the Church of the Holy Spirit in Lake Forest of \$53.25 and for Christmas donations from Mr. Schweppe, Mrs. Kersey Coates Reed, St. Luke's Alumni Association, St. Luke's Staff Nurses and Miss Eliza Campbell, totalling \$294.00.

We desire to express our appreciation and our gratitude to the Medical staff who have given so liberally and generously of their time to the patients of our clinics and to the Social Service staff who have constantly spent long hours to the devoted and efficient conduct of the department and in assuring each patient equal personal attention. No word or measure of praise is adequate to convey or indicate the help and unselfishness of these combined staffs. We express our great appreciation to the St. Luke's volunteers who have ably and willingly assisted our staff; to Mr. Zabel who is always so willing and ready to fill our prescriptions despite their increase, this being an important part in the aspect of our clinic. The Social Service Department is most grateful to Mr. Wordell for his assistance at all times and on all occasions in our problems given by him so promptly and willingly in the course of the many responsibilities of the hospital of which he is personally in charge.

We marvel at the calm manner in which Miss Armstrong carries forward the work of this department and her exceptional and great ability in its guidance and her grasp and resourcefulness in the solution of the questions which arise daily and without advance notice. Her services are performed with kindness and friendship for all who know her or whom she encounters and we well know the benefit and progress this department and its personnel have experienced by reason of her leadership.

Respectfully submitted,

MARGUERITE P. WOLF.

BY-LAWS OF THE WOMAN'S BOARD OF ST. LUKE'S HOSPITAL

ARTICLE I.

The Board shall be called the Woman's Board of St. Luke's Hospital.

ARTICLE II.

Its object shall be to aid the Trustees of the Hospital to provide bedding, table linen, china, reading matter, delicacies, comforts for the sick and furnishings for the Hospital and the Elizabeth Stickney Home (The Training School for Nurses), also to invite the co-operation and secure the help of the Episcopal Churches and all charitable people of Chicago in the work of the Hospital.

ARTICLE III.

Section 1. Membership shall be of four classes: Honorary, Senior, Active and Associate.

Section 2. Honorary Membership may be conferred upon one who has rendered especial or distinguished service to the work of the Board. The name of one desired to be so honored shall be sent in writing, with the reasons therefor, signed by at least two members of the Board, to the Membership Committee. If the name is considered favorably by the unanimous ballot of the Membership Committee, it shall be recommended to the Board where election shall be by ballot. **A unanimous vote of the Board shall elect to Honorary Membership.** Honorary Members have all the rights and privileges of membership except the right to vote and hold office. Honorary Members pay no dues.

Section 3. Senior Members shall be chosen, on the recommendation or with the approval of the Membership Committee, from those who have served as active members of the Board. They shall have the right to attend all meetings, may vote at all meetings and have all the rights and privileges of active members except that of holding office. Senior members shall not, unless volunteering or expressing a desire so to do, be considered available for active work or service at the Hospital. Senior members shall pay annual dues of \$15.00.

Section 4. Active Members shall not exceed sixty in number; shall pay annual dues of \$5.00, and have all rights and privileges of membership.

Section 5. Associate Members pay annual dues of \$10.00. They shall have the right to attend meetings of the Board, and shall be notified by card of the annual meetings. Associate Members do not vote nor hold office.

Section 6. Candidates for membership on the Board shall be recommended in writing by two members of the Board to the Membership Committee. The Membership Committee shall vote by ballot upon candidates so recommended, and upon unanimous vote same shall be referred to the Board for final action. The Board shall vote by ballot upon candidates recommended by the Membership Committee. Three negative votes shall defeat election.

Section 7. The Membership Committee shall consist of the three Vice-Presidents with the Second Vice-President as Chairman and two non-office holding members to be elected by the Board at the Annual Meeting.

ARTICLE IV.

Section 1. Officers: The Officers of the Board shall be a President, three Vice-Presidents, Recording Secretary, Corresponding Secretary and a Treasurer.

Section 2. At or prior to the November Meeting of the Board the President shall appoint a Nominating Committee of five members, whose names shall be announced by the Recording Secretary at the November Meeting. To this Committee shall be entrusted the recommendation of a ticket consisting of at least one name for each office to be filled. No one shall be recommended by the Nominating Committee whose consent to serve has not been first obtained. The ticket so prepared shall be announced at the December Meeting. After which a copy shall be mailed to all voting Members of the Board, and shall be presented to the Board at its January Annual Meeting, at which meeting nominations may also be made from the floor. The election shall be by ballot and a majority vote shall elect.

Section 3. The officers elected at the annual meeting shall serve one year and until their successors shall be elected and qualified.

ARTICLE V.

Section 1. There shall be an Executive Committee consisting of the Officers of the Board and Chairmen of all standing committees. The Executive Committee shall meet at the call of the President.

Section 2. It shall be the duty of the President to preside at all meetings, appoint all committees not otherwise provided for, and perform the ordinary duties of the President.

Section 3. The first Vice-President shall perform all the duties of the President in her absence.

Section 4. The Second or Third Vice-President shall perform the duties of President, in the absence of both the President and

the First Vice-President. The Second Vice-President shall be the Chairman of the Membership Committee.

Section 5. The Corresponding Secretary shall conduct all correspondence on behalf of the Board, and shall send the usual notices of meetings.

Section 6. The Recording Secretary shall keep and preserve reports and minutes of all the meetings, and shall mail copies of the minutes to the President and Corresponding Secretary. She shall also perform such other duties as may be directed by the Board.

Section 7. The Treasurer shall collect the dues and receive the Funds of the Board, and shall pay out money only as directed by the Board. She shall keep such records as may be prescribed by the Board, and shall submit to the President each month an accurate exhibit of receipts and disbursements.

ARTICLE VI.

Section 1. The annual meeting of the Board shall be held on the fourth Wednesday in January at 10:30 a.m., at which time the annual dues of \$5.00 shall be paid.

Section 2. The regular meetings of the Board shall be held at St. Luke's Hospital, on the first Wednesday of each month from October to June inclusive.

Section 3. Seven members shall constitute a quorum for the transaction of business at all meetings, including the Annual Meeting.
